Framed canvas

Short description:	38mm cotton canvas art prints – set inside a premium floating frame
Long description:	A refined alternative to standard canvas wall art, our framed canvas prints pair a 38mm stretched canvas with a sleek floating frame for a more elevated, gallery-style finish. The combination adds depth and structure, giving your custom canvas prints a more polished, statement look. The slim wooden frame is positioned slightly away from the canvas edge, creating a subtle shadow gap that produces a clean floating effect. This separation enhances the artwork, drawing focus to the image while adding a sense of depth and dimension. Ideal for photography and bold, high-impact designs, these framed canvas prints offer a contemporary presentation that stands apart from traditional stretched canvas formats.
